

User Guide #1

How to Use the Solar Charger and The SAMSUNG Galaxy Y Cell Phone

Parts of the Solar Charger

Solar Lamp

Charging the Solar Battery

Connect the longest cable to the solar charger port.

The LCD panel will show the charging power from 1-5:

- 00:01 = Very slow
- 00:02 = Slow
- 00:03 = Average
- 00:04 = Good
- 00:05 = Best

Place the solar panel facing up towards direct sunlight.

Always leave the lamp inside the house.

Charges fast

Charges slow

Using the Solar Lamp

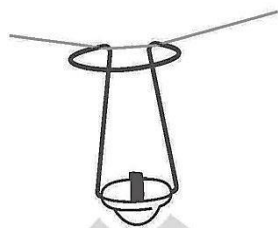

To turn on, press the on/off switch once.

To turn up the level of the light, press the switch once more.

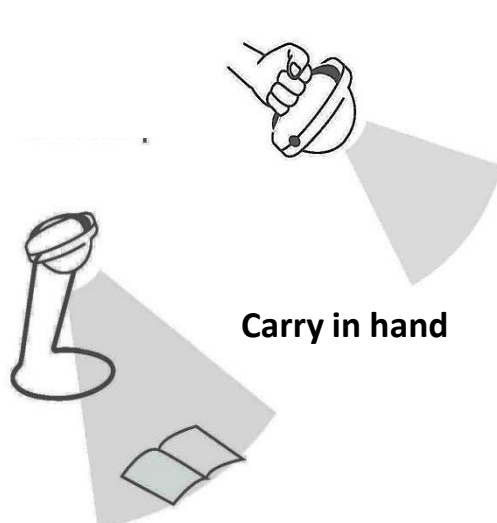

To turn off, press the switch one more time.

Shows how much light is left

Hanging

Carry in hand

Table light

Charging the Phone

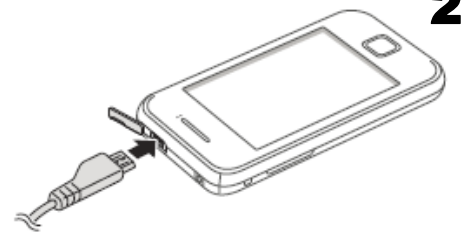

Choose the proper adapter for the phone.

Connect the adapter to the charging cable.

Insert the other end of the cable into the charger port in the solar lamp.

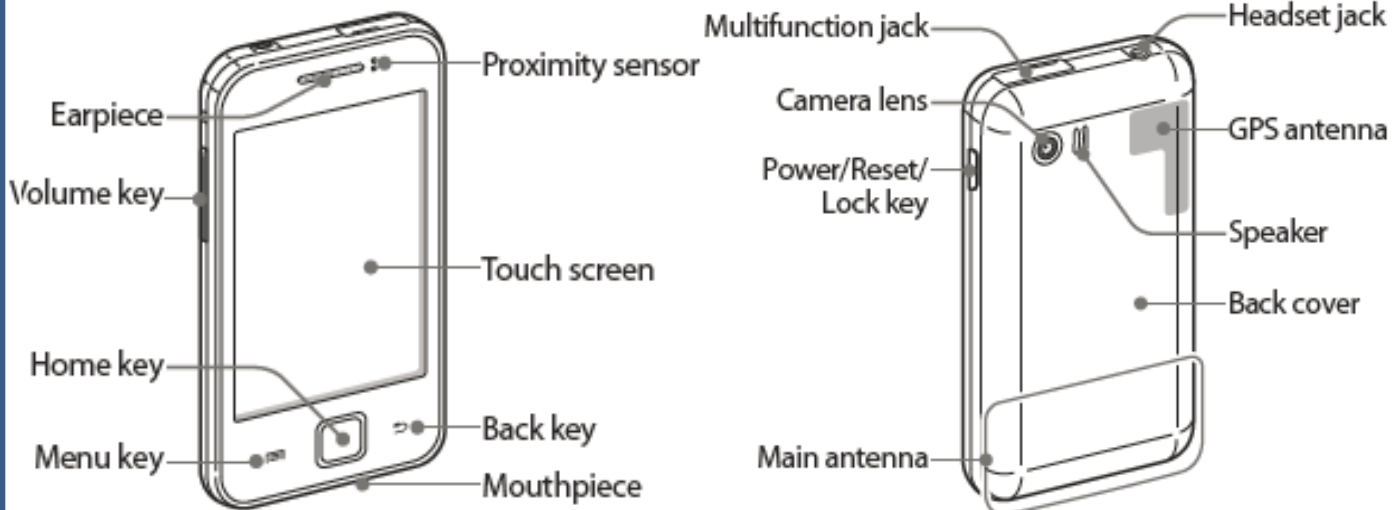

Connect the cable to the phone.

Shows that battery is charging

**Always use the correct adapter for the phone.
Never force the adapter into the phone.**

Parts of the Phone

Taking Care of the Phone

Don't let the screen or any other part of the phone get wet.

Don't leave the phone near a stove or outside the house.

Handle with care – it can break easily.

Always use the protective bag.

Using the Touch Screen

“Swiping” (dragging a finger):

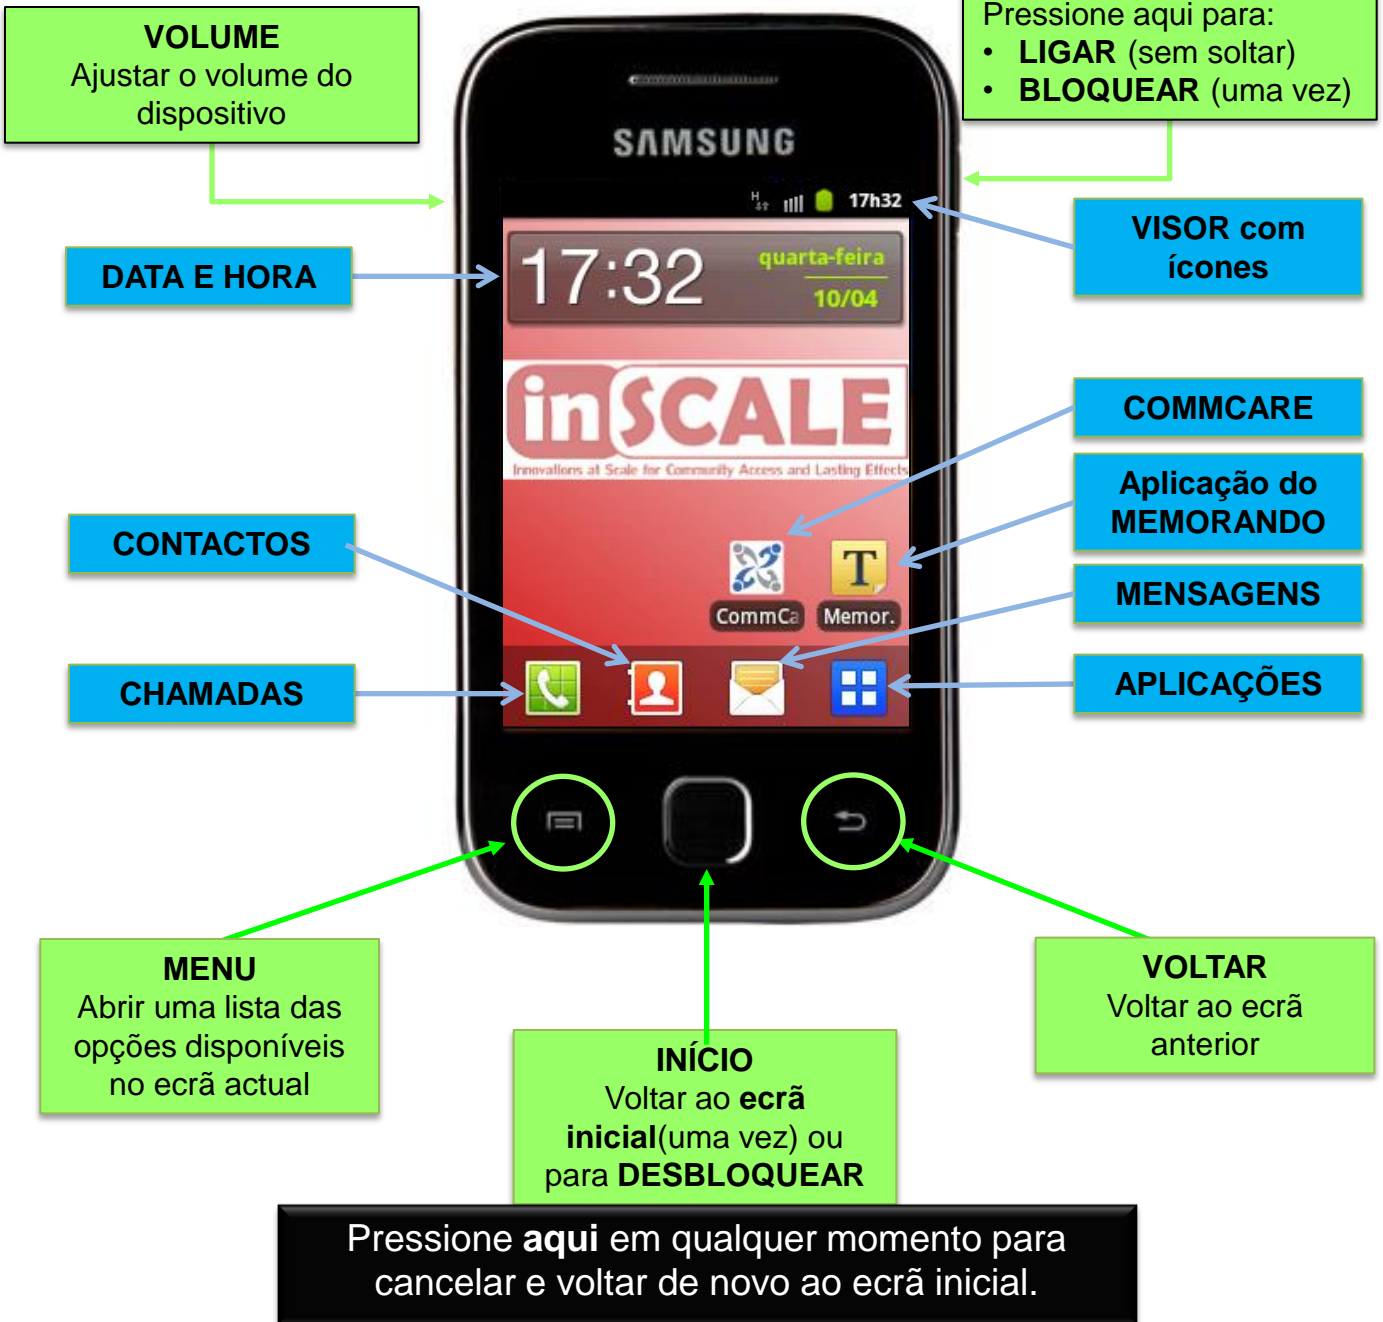

- For moving between screens
- Soft dragging motion with index finger

Clicking:

- Touch quickly with index finger

Left hand → holding the phone

Right index finger → using the phone

Como Ligar e Desligar

Ligar:

- Pressionar a **Tecla de Ligar** sem soltar
- Soltar quando o telefone vibrar e aparece o ecrã "Samsung Galaxy Y"

Desligar:

- Pressionar a **Tecla de Ligar** sem soltar até vibrar e aparece um menu de opções.
- Seleccionar **Desligar** → OK.

Como Bloquear e Desbloquear

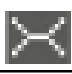

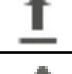

Bloquear:

- Pressionar a **Tecla de Ligar** uma vez. O ecrã vai ficar preto.

Desbloquear:

- Pressionar a **Tecla de Início** uma vez para mostrar o ecrã azul.
- Passar o dedo no ecrã para desbloquear.

Icons on the Top Panel

	CommCare is open
	Network strength
	No network - can't send data!
	Internet network connected
	Battery level
	Vibration mode active – Turn up the volume!
	New SMS received
	Missed call
	Call in progress
	Sending data
	Error occurred – call technical help!

Checking Internet Connection

You should see two icons on the top panel of the phone:

Network Strength

Internet network connected

If you see this icon  it means that you aren't connected to the network and can't send data.

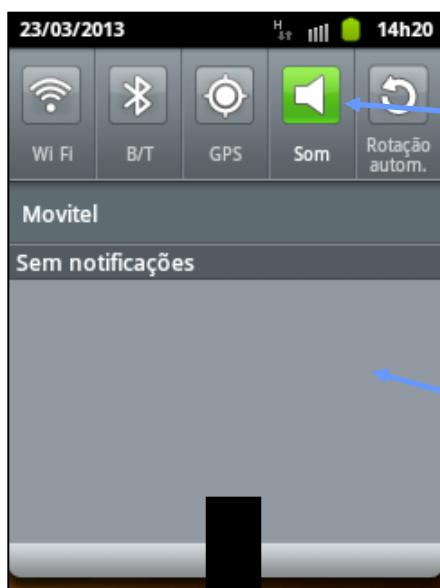

Try to find a place that has a stronger cell signal.

If you see this icon  but don't see this  it could mean that you don't have enough credit on the phone.

To check how much credit you have, dial *151#

Notification Panel

Swipe your finger downwards to open the Notification Panel.

Here you can turn on or off different settings that might drain your battery.

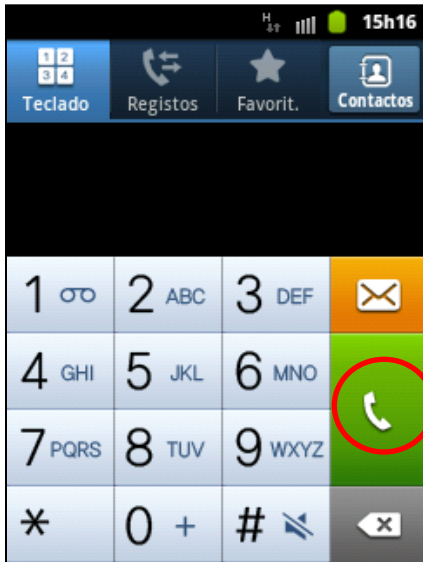

Only the SOUND icon should be green. If others are green, you could run out of battery!

This part will tell you recent notifications, like:

- You have a new unread message
- You have a missed call
- If information from CommCare was sent

Making Calls

5

1.  Open the CALL menu

2. The KEYPAD menu icon should be selected

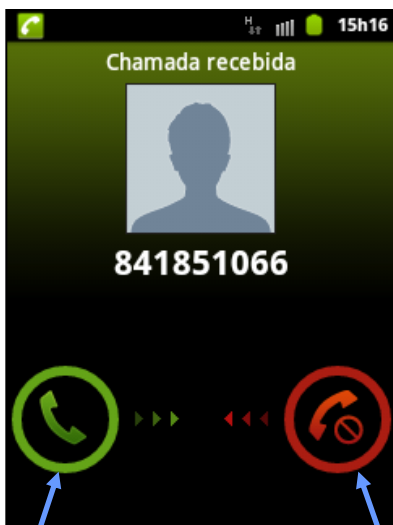

3. Use the keypad to dial the number you want to call

4. Press the green call button

To check how much credit you have, dial *151# on Movitel or *132# on mCel.
